1 Identification of the substance/preparation and of the company/undertaking

Product details
- **Product category:** FAÇADE
- **Trade name:** TEIFSLEX FINISHES
- **Application/preparation of the substance:** EIFS Coating
- **Manufacturer/Supplier:** PAREXUSA, Inc.
  4125 E. LA PALMA AVE
  SUITE 250
  ANAHEIM, CA 92807

Further information obtainable from: pedro.paredes@parexusa.com
- **Contact phone number:** 800-226-2424
- **In case of emergency, contact CHEMTREC:** 800-424-9300

2 Hazards identification

Hazard pictograms (GHS-US):
- **Irritant:**

<table>
<thead>
<tr>
<th>Health Hazards</th>
</tr>
</thead>
<tbody>
<tr>
<td>Warning</td>
</tr>
<tr>
<td>H303 Can be harmful if swallowed</td>
</tr>
<tr>
<td>H320 Causes eye irritation</td>
</tr>
<tr>
<td>H335 May cause respiratory irritation</td>
</tr>
<tr>
<td>H313 May be harmful in contact with skin</td>
</tr>
</tbody>
</table>

Precautionary statements (GHS-US):
- **P402:** Wear protective gloves/protective clothing/eye protection/face protection.
- **P280:** IF ON SKIN: Wash with plenty of soap and water
  IF IN EYES: Rinse cautiously with water for several minutes.
  Remove contact lenses, if present and easy to do. Continue rinsing.
- **P302+P352:** IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing
- **P305+P351+P338:** IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician

HMIS codes:
- **Health:** 1
- **Flammability:** 0
- **Reactivity:** 0
- **Protective equipment:** B

Information concerning particular hazards for human and environment:
- May be harmful if ingested.
- Dust may be irritating to eyes, respiratory system, and skin.
- Not known to cause reproductive harm or birth defects.
- Keep out of reach of children.
### Chemical characterization

<table>
<thead>
<tr>
<th>CAS #</th>
<th>Name</th>
<th>Exposure Limit</th>

<td>4,4 Dimethyloxazolidine</td>
<td>OSHA PEL 8 HR TWA 10mg/m³</td>
</tr>
</tbody>
</table>

Additional information: n/a

### First aid measures

**General information:**

n/a

**After inhalation:**

Remove to fresh air. If not breathing, give artificial respiration. If having difficulty breathing, give oxygen. Get immediate medical attention.

**After skin contact:**

Wash affected area thoroughly with soap and water. Remove contaminated clothes and launder before re-use.

**After eye contact:**

Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.

**After swallowing:**

Do not induce vomiting. Get medical attention immediately.

### Fire-fighting measures

**General information:**

Water based product.

**Flash point:**

n/a

**Suitable extinguishing agents:**

For the dried product, use carbon dioxide, dry chemical, or alcohol foam.

**Hazardous combustion products:**

Incomplete combustion of dried product can yield low molecular weight hydrocarbons, carbon monoxide, and carbon dioxide.

**Protective equipment:**

Respiratory equipment should be worn to avoid inhalation of combustion products.

**Firefighting instructions:**

Water should not be used except as fog to keep nearby containers cool. Water may be used to cool closed containers to prevent pressure build-up and explosion when exposed to extreme heat.

### Accidental release measures

**Measures for environmental protection:**

Keep spilled products out of sewers, streams, and water systems.

**Measures for cleaning/collecting:**

For dry material, collect by sweeping and scooping. Transfer collected material to a container, being careful to minimize creation of dust. For wet material, scoop material up and transfer to an open container. Allow material to dry before disposal.

Additional information: See section 13 and section 15 for specific regulatory information concerning this product.

### Handling and storage

**Handling:**

Wear appropriate protective equipment when working with this product. Keep containers when not in use. Transfer only to approved containers with complete and appropriate labeling. Keep out of reach of children.

**Storage:**

Avoid temperature extreme extremes in storage. Do not allow to freeze. Consult the Technical Data Sheet for specific storage instructions.
8 Exposure controls/personal protection

Additional information about design of technical facilities: n/a

WARNING! If you scrape, sand, or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log onto www.epa.gov/lead.

Additional information:
The lists valid during the making were used as a basis.

Personal protective equipment:

- **Ventilation**: Use local exhaust. General exhaust acceptable if the exposure to materials above is maintained below applicable exposure limits. Refer to OSHA Standards 1910.94, 1910.107, and 1910.108.

- **Respiratory protection**: If personal exposure cannot or may not be controlled below applicable limits by ventilation, wear properly fitted respirator approved by NIOSH/MSHA for protection against materials described above.

- **Eye protection**: Wear safety glasses to reduce the potential for eye contact.

- **Skin protection**: Prevent prolonged or repeated contact by using rubber gloves and appropriate protective clothing.

9 Physical and chemical properties

**General information:**

- **Form**: Fluid
- **Color**: White and or colored
- **Odor**: Mild ammonia
- **pH**: pH: 8.0-10.0

**Change in condition:**

- **Melting point/melting point range**: 32°F
- **Boiling point/boiling point range**: 190-212°F
- **Evaporation rate**: Slower than ether.
- **Vapor density**: Heavier than air.

**Specific gravity**: 1.87

**Solubility in/Miscibility with water**: dispersible

**Density at 20°C**: 15.58 lb/gal

**VOC**: 11 g/l(0.0932 lb/gal)

10 Stability and reactivity

- **Conditions to be avoided**: None known
- **Chemical stability**: Stable
- **Materials to be avoided**: None known
- **Hazardous polymerization**: Will not occur
- **Dangerous decomposition products**: Will not spontaneously occur. By fire - low molecular weight hydrocarbons, carbon dioxide and monoxide
### Toxicological information

#### Acute toxicity:

<table>
<thead>
<tr>
<th>Substance</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>crystalline silica (quartz, cristobalite)</td>
<td>Considered a known human carcinogen by Federal (OSHA) and advising health agencies (IARC, NIOSH, and NTP). Additionally, crystalline silica can cause a lung condition known as silicosis after long term exposure to dusts containing crystalline silica. Exposure of workers to crystalline silica containing dusts is specifically regulated by OSHA. The use of a correctly fitted, NIOSH approved respirator suitable for use against crystalline silica inhalation is essential for minimizing exposure to this danger.</td>
</tr>
<tr>
<td>mineral dusts</td>
<td>Some items mentioned in Section 8 are considered mineral dusts by OSHA and a correctly fitted, NIOSH approved respirator is required when working with this product.</td>
</tr>
<tr>
<td>titanium dioxide</td>
<td>is considered a suspected carcinogen by advising health agencies. There is one animal study where titanium dioxide exposure caused lung cancer in rats. However, the level of exposure during the test was far in excess of what would be experienced by workers during use of this product. However, care should be exercised and the use of a correctly fitted NIOSH approved respirator should be used when working with this product.</td>
</tr>
</tbody>
</table>

#### Primary irritant effect:

<table>
<thead>
<tr>
<th>Exposure Path</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>on the skin</td>
<td>Exposure of skin to wet product mix may cause chemical burns. Symptoms of exposure may take several hours to manifest.</td>
</tr>
<tr>
<td>on the eye</td>
<td>Exposure of eyes to wet product mix may cause chemical burns and blindness. Exposure to airborne dust can cause immediate or delayed irritation or inflammation.</td>
</tr>
<tr>
<td>through ingestion</td>
<td>May be harmful if ingested.</td>
</tr>
<tr>
<td>through inhalation</td>
<td>Dust generated during handling this product may cause irritation to the respiratory tract.</td>
</tr>
</tbody>
</table>

#### Behavior in environmental systems:

|                    | n/a                                                                                           |

#### Mobility and bioaccumulation potential:

|                    | n/a                                                                                           |

#### General notes:

|                    | n/a                                                                                           |

### Disposal considerations

#### Product recommendation:

- This product must be disposed of in accordance with applicable local, state and federal regulations. Where possible, it is best to use up any excess material.

#### Uncleansed packaging recommendation:

- Disposal must be made according to official regulations.

### Transport information

#### Land transport  USDOT

- Not classified as a dangerous good under transport regulations

#### Sea transport  IMDG

- Not classified as a dangerous good under transport regulations

#### Air transport  IATA/ICAO

- Not classified as a dangerous good under transport regulations
### Regulatory Information

#### US Federal Regulations
