ProjectProfile

"We spray applied Parex Keyguard in lieu of roller applying. It worked great and sped up the project tremendously."

Size: 30,000 sq. ft.

Distributor: Badgerland Supply

Applicator: Appleton Lathing

Whether it is a need for drywall, steel stud, acoustical ceilings or Exterior Insulation & Finishing Systems (EIFS), Appleton Lathing Corporation offers single source reliability for jobs of any size or scope. From a 500 square-foot basement ceiling to a 500,000 square-foot office building, we can handle it. Since 1959, our company has completed over 25,000 projects on time and on target. Whether it's new construction or a remodeling project, for a Fortune 500 company or a small business, each project receives individualized attention.

The Challenge

- Delay of Project
- Needed to complete project before climate grew too cold.

The Solution

- Parex Keyguard
- Parex Multi-Tex
