Holy Land Experience: Church of all Nations – Orlando, FL

# ProjectProfile

**Size:** 35,000 sq. ft.

**Owner:** T&G Contractors

**Architect:** MDC Architects, Inc.

**Distributor:** Continental Stucco Products of Florida

**Applicator:** JM Elite Builders

JM Elite Builders, Inc is a leading subcontractor located but not limited to the central Florida area that concentrates in exterior wall finishes. They have had the opportunity to partner up with general contractors nationwide for the development of nearly seven million industrial and commercial projects.

On site, JME is brought in towards the final stages of the project for their exterior wall finish expertise. The exterior wall finishes JME offers stucco, EIFS (exterior insulation finish system), synthetic, and siding. JME prides themselves on the quality of their work and take time making sure their client/business partner is satisfied.

JME has worked on projects like the new Amway Center, Harry Potter Theme Park, UCF Thermal Tank, UCF Brighthouse Stadium, and The Holy Land Experience Church of all Nations to name a few.

#### **The Challenge**

- Project needed to be an exact replica of the Church of All Nations in Jerusalem, Israel.
- Constant changes
- Multiple application changes.

#### **The Solution**

- WeatherTech System
- Sand Fine
- Metallic Coating
